

# Worried about your Mare foaling by herself?

## Want to be there when she gives birth?

Now you can have peace of mind with the new interference free

# Safety Breed

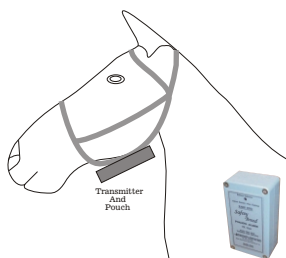

## Foaling Alarm System

A lot of the existing Foaling Alarm systems around suffer from signal interference due to the Radio Frequency they operate on. Our latest version of *Safety Breed* operates on a new interference free frequency and so has much improved reliability. It is not effected by Electric Fence Units, Power lines etc.
